

# Vitality for life

Taking cell activation to a whole new level

**NEW!**

Nº0

Take a deep breath –  
wherever you are.

## With O de Vi

### Searching for fresh air in closed rooms?

Sensory overload and other external influences can leave you tired and lethargic. Fresh air is what's needed – and of course, totally natural is best. Just like a storm purifies the air, O de Vi vitalizes and improves indoor air quality.

Recharge your batteries and noticeably increase your concentration with the very first breath.

## O de Vi

Vitality – any time and any place.

### In the office, at meetings, in school, during physical activity or while traveling.

The effect of O de Vi is based on the principle of photonics – the fascinating phenomenon of bioinformation.

O de Vi actually changes the air molecules biophysically, so that they form a new structure. The body's regulatory mechanisms are positively influenced and enhanced, while organic essences help restore the natural balance.

### Just spray, breathe and enjoy!

## With O de Vi

Nº1

# Fresh air? Right away!

**O**<sub>de</sub>**vi**  
N<sup>o</sup>0 neutral

**O**<sub>de</sub>**vi**  
N<sup>o</sup>1 fresh & soft
