HEALTH IS MULTIDIMENSIONAL + INDIVIDUAL

Everything influences our health.

Some of these factors are shown in the graphic. They affect us physically, mentally, and emotionally – each in different ways. Because every person comes with unique conditions and has individual needs.

CHALLENGES TO OUR HEALTH

In a perfect world, we would sleep well, eat a balanced diet, stay active, and know how to relax effectively.

But the reality often looks different: we spend hours scrolling through social media at night, sit too much, and struggle with mental overload. Pollutants in our food and air, along with constant electromagnetic exposure, are everywhere.

Some of these factors are within our control – others, less so. All of it adds stress and takes a toll on our health.

PROMOTING AND STRENGTHENING HEALTH – MULTIDimensionALLY AND INDIVIDUALLY

At Vitarights Innovations, we approach things differently – enabling people to live healthier, more self-determined lives. That is why we develop products based on cutting-edge technologies. Our foundation? Informational medicine.

Our multidimensional approach? Strengthening, activating, or regulating biological systems at the cellular level while buffering against negative influences.

For people and animals. Simple, reliable, anytime, anywhere.

IMPACT AT THE CELLULAR LEVEL FOR THE ENTIRE ORGANISM

Everything affects our health. That is why we support it all – in this case, the entire organism. How? By targeting where essential processes begin: at the cellular level. Because this is the direct path to triggering real change and positively influencing health and well-being.

MULTITALENT AND SPECIAL TALENTS: THE MULTIDIMENSIONAL APPROACH

The Beosigner® is a versatile powerhouse in informational medicine: it stimulates cells throughout the body to self-regulate.

Want to target specific areas? Use the Beosigner® as your core product – and enhance it with special talents. In other words: Beosigner® +. Designed for specialized mental or physical needs, for your pet, or for Slow Aging.

BEOSIGNER®

BeoKeys

WORKS ON ALL LEVELS: PHYSICAL, MENTAL, EMOTIONAL

There are interactions between the body and mind. This is not only recognized by science, but something we have all experienced: during a traffic jam or train delay, in yoga, or with relaxation techniques like progressive muscle relaxation.

It is all about the connection between body and mind – and the positive or negative effects that can flow in either direction. Stress can cause physical symptoms like muscle tension. On the other hand, a good, hearty laugh can help worries fade into the background.

SO, WHAT COULD BE MORE NATURAL THAN
USING A CONCEPT THAT WORKS TWO WAYS?
HOLISTIC + POSITIVE:

THE BEOSIGNER® CONCEPT WORKS EXACTLY LIKE THAT.

The foundation of the concept is information medicine and quantum physics. Complex topics – but made simple and effective for you at the push of a button.

We rely on specially developed, cutting-edge technologies that have emerged from scientific investigations verified by scientific research and confirmed by many people.

The goal of the Beosigner® concept is the biologically effective delivery of relevant information into the cells of a living organism. This activates, strengthens, or regulates biological processes on both a physical and mental level. Holistically + positively.

EFFECTIVE: THE BEOSIGNER® CONCEPT

OUR APPROACH TO THE BEOSIGNER® CONCEPT: HOLISTIC + POSITIVE + PRACTICAL

The Beosigner® serves as the foundation for the application. It carries information for biological processes at the physical level in humans.

When used with the BeoKeys, the Beosigner® becomes a modular system. Each BeoKey contains precisely tuned information for specific areas: mental well-being, slow aging, or animal health. Useful tools support this concept.

THE HOLISTIC CONCEPT:

- ✓ **Works comprehensively on the body:** Beosigner®
- ✓ **Targets the mental level:** Beosigner® + BeoKeys Power, Joy, Stability, Focus
- ✓ **Shows visible effects:** Beosigner® + BeoKey Slow Aging
- ✓ **Provides holistic care for animals:** Beosigner® + BeoKey Animal Complete
- ✓ **Delivers lasting results:** Beosigner® + BeoTapes
- ✓ **Works twofold:** Beosigner® + BeoPark

THE PRACTICAL CONCEPT:

- ✓ **Works everywhere:** at home and on the go, in the office and the barn, in everyday life and on vacation
- ✓ **Works universally:** for people, animals, and plants
- ✓ **Works in many ways:** across a wide range of applications

SEE HOW FAST AND EFFECTIVELY THE BEOSIGNER® WORKS – FOR HUMANS AND ANIMALS

The Beosigner® delivers relevant information biologically effectively into the cells of living organisms.

This information influences metabolic processes at the cellular level, helping the organism achieve homeostasis. This transfer is made possible by coherent light – light with a high degree of spatial and temporal order.

EFFECTIVE FOR HUMANS AND ANIMALS

Vitality issues such as fatigue, lack of energy, or hypersensitivity are linked to a deficiency of biophotons carrying the right information in the body's cells. The Beosigner® can vitalize and reprogram cells, thereby stimulating the body's self-healing powers.

EFFECTIVE IN SECONDS

The relevant information is transmitted the moment the Beosigner®'s coherent light contacts a living organism. Even brief applications can make a significant impact: strengthening, activating, or regulating cellular metabolism.

HOW TO USE THE BEOSIGNER®: BASIC VITALIZATION AND MENTAL AREAS

BASIC VITALIZATION: BEOSIGNER®

Vitalize all four main vitalization points (see pages 22/23 for points and duration)

PROMOTE INDIVIDUAL MENTAL WELL-BEING: BEOSIGNER® + BEOKEY

1. Perform basic vitalization (see pages 22/23 for points and duration)
2. Wait two to three minutes, drinking a glass of vitalized water while inserting the selected BeoKey into the Beosigner® (see pages 24/25 for areas of effect)
3. Vitalize the point associated with the inserted BeoKey for 60 seconds
(BeoKey Power, Focus, and Joy: vertex; BeoKey Stability: solar plexus; see pages 22/23 for points)
4. If you want to use multiple BeoKeys in a row, it is best to pause two to three minutes between each

RECOMMENDATION: We suggest two applications per day, spaced four to five hours apart.

IMPORTANT: You decide how to use the Beosigner® and BeoKeys. Your breaks may be shorter or longer, and you might prefer to work directly with the BeoKey inserted. Our experience shows that especially at the beginning, following our recommended approach is important – particularly for sensitive individuals. This helps the body adjust more easily to the positive effects it is receiving.

PRACTICAL SUPPORT: BEOPARK AND BEOTAPES

BEOPARK:

SUPPORT WHILE VITALIZING

Always position the Beosigner® perfectly: place or tilt the BeoPark at different heights or angles. The advantage? Your hands stay free while foods, drinks, or skincare products are being vitalized. Plus, it gives you easier access to hard-to-reach areas on your body – like your spine, for example.

BEOTAPES:

HANDS-FREE VITALIZATION

With BeoTapes, you can secure the Beosigner® to your body: simply wrap the BeoTape around the desired area and fasten it with the Velcro closure. The Beosigner® fits into a convenient loop, and all you have to do is turn it on. Of course, this works for animals too – just give it a try.

THE FOUR ACUPUNCTURE POINTS FOR YOUR DAILY BASIC VITALIZATION

1. THE VERTEX: FOR THE HYPOTHALAMUS

The hypothalamus acts as a mediator, responsible for vital functions, hormone balance, the immune system, and sexual functions.

An example of its function: the hypothalamus determines whether external stimuli enter our conscious awareness.

How to find the vertex:

The acupuncture point for the hypothalamus is the highest spot on your head. It is located where your fingers meet when you slide them upward from the tops of your ears.

60 s

Fast and effective vitalization

2. THE NASAL BRIDGE POINT: FOR THE PITUITARY GLAND

The pituitary gland, the hypophysis, controls various hormone-producing glands, including the thyroid and adrenal cortex.

When the thyroid falls out of balance, it can affect our energy levels, mood, and metabolism. If the adrenal glands become fatigued, we may struggle to cope with everyday demands.

Such fatigue can occur when the system becomes overloaded: more stress, more stress hormones – then a crash. What helps us cope with stress in the short term eventually wears itself out. And then it wears us out – potentially leading to burnout.

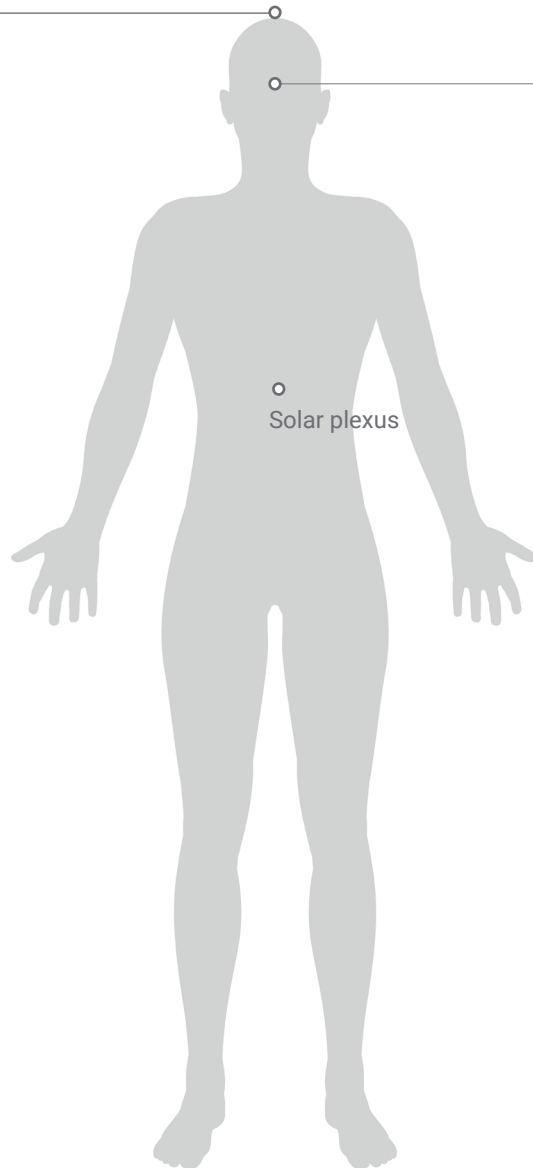

How to find the nasal root point:

The acupuncture point for the pituitary gland is located directly between the eyebrows.

15 s

Fast and effective vitalization

3. THE THYMUS GLAND

The thymus gland (the thymus) is often called the brain of the body's immune defense.

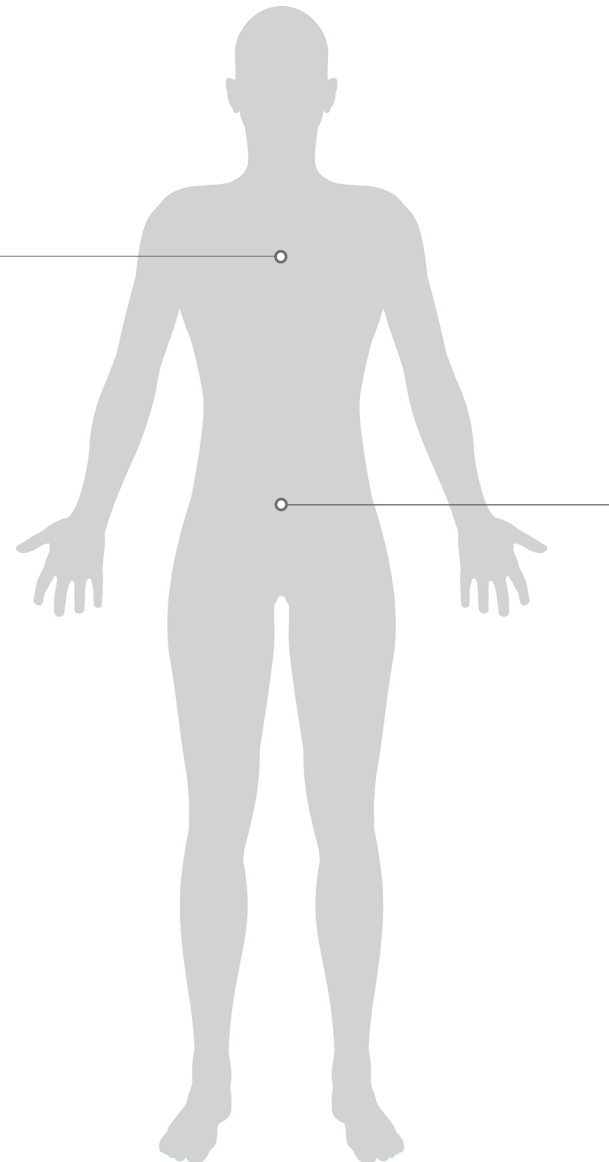

It is part of the lymphatic system and acts as a link between the immune system, hormonal system, and autonomic nervous system. Since the thymus shrinks starting at puberty, it plays a minor role in conventional medicine. However, in natural medicine, the thymus is considered to remain active and benefits from regular stimulation.

How to locate the thymus gland:

The thymus gland is located behind the sternum, about four finger widths below the hollow at the base of the neck.

Fast and effective vitalization

4. THE "SEA OF ENERGY"

The name comes from Traditional Chinese Medicine – and it speaks for itself: this acupuncture point helps boost energy levels.

It reduces food cravings, supports the digestive system, and positively influences the adrenal glands. It is considered one of the most frequently used acupuncture points.

How to find the "Sea of Energy":

The "Sea of Energy" is located three finger-widths below the naval.

HOW TO SUPPORT YOUR MENTAL WELL-BEING

BeoKey Power

For full batteries

Use the BeoKey Power like a lightning rod that buffers stressful stimuli. You become more aware of stress-inducing situations and can build a protective barrier against the feeling of being overwhelmed. You can absorb stressful times by optimizing relevant metabolic functions. This allows you to regenerate more quickly, gain more confidence in yourself and reduce fear of failure.

The result: you tackle the challenges of your everyday life with recharged batteries.

60 s

Fast and effective vitalization

BeoKey Joy

For joy and drive

Melancholy, depression or sadness? Bad for mind and body – so boost your zest for life. Rely on the BeoKey Joy, which works like a smile. Perceiving positive aspects helps to develop visions for life. You will recognize what regained health can mean for you. This attitude influences your well-being and you enjoy greater self-worth and self-determination.

The result: you approach each day with renewed enthusiasm and well-being.

60 s

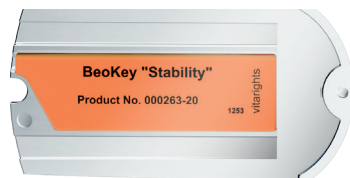

Fast and effective vitalization

BeoKey Stability

For mental balance and confidence

Balance important components of the autonomic system with BeoKey Stability. This allows you to enjoy inner peace and soothing relaxation. The improved attitude to life can also have a positive effect on disorders where a close connection between the psyche and body is known. Walk upright through life again with firm convictions, calm and self-confidence.

The essence: BeoKey Stability – a supporting pillar for your positive attitude to life.

60s

Fast and effective vitalization

BeoKey Focus

For concentration and clarity

Face possible difficulties in a more concentrated, tidy and relaxed manner. The purification of amino acids is important for brain metabolism and the psyche, among other things. When problems appear more transparent, harmony and zest for life arise. Those who are less distracted, restless or agitated become more decisive, dynamic and efficient. See the BeoKey Focus as a magnifying glass for these processes.

What it means: you keep your attention on the essentials in life.

MAIN VITALIZATION POINTS FOR ANIMALS

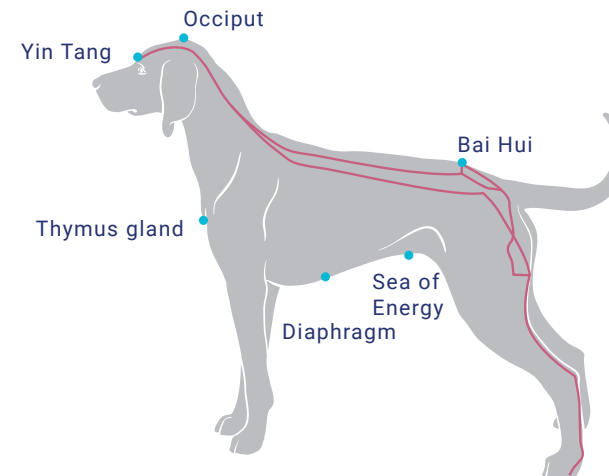

Traditional Chinese Medicine is based on the concept of meridians – energy pathways. These meridians can be accessed and stimulated through acupuncture points, affecting organs and entire body areas. This applies to animals as well.

Bladder Meridians

HORSE Bladder meridians (left and right of the spine), Bai Hui; optionally: diaphragm, occiput, thymus gland, Yin Tang, "Sea of Energy"

How it works:
Simply follow the illustrations. Move the Beosigner® along the meridians and hold it over the corresponding points. The BeoTapes (see p. 21) provide handy support: The BeoKey Animal Complete works for you while your hands stay free – for cuddling.

DOG/CAT* Bladder meridians (left and right of the spine), Bai Hui; optionally: diaphragm, occiput, thymus gland, Yin Tang, "Sea of Energy"

* The main vitalization points for dogs and cats are identical.

TESTIMONIALS ON THE **BEOSIGNER®** CONCEPT

*"I have a friend who suffered from sleep issues.
I told her about the Beosigner, and to this day,
I still receive thank-you emails from her.
She's absolutely thrilled."*

Dirk Bettenhausen

*"Overall, I have had amazing experiences with
the Beosigner. My horse responds much more
strongly to the Animal-Key, and the reactions (licking,
chewing, yawning) don't fade even after several days
in a row. The injury to the suspensory ligament also
showed noticeably faster improvement.
My other mare has been moving much more
smoothly since using it."*

Lea Mauel

*"Since we started vitalizing, our rescue dog
has been much calmer."*

Daniela Sch.

*"Our youngest is very sensitive and quickly gets
stomach aches when he feels uncertain or has
something on his mind. He loves the Beosigner,
especially the BeoKey Stability."*

A. J.

*"My wife has a food allergy to raw fruits and
vegetables. When she uses the Beosigner to vitalize
her food, she can enjoy everything. Fresh fruit every
day – it's an incredible improvement in
her quality of life."*

Uwe Seitz

*"By the second day using BeoKey Power, I already
felt more energized, and I noticed my mood had
improved a lot."*

STUDIES AND RESEARCH DEMONSTRATE HEALTH BENEFITS

EFFECTS ON INFLAMMATION

Conclusion from the test report:

In vitro, there is an inactivation of radicals and thus an anti-inflammatory effect of nearly 10%.

Measurement: up to five minutes after a single 10-minute application.

"This rapid onset of effect in vitro could also explain the quick pain relief and improvement of inflammatory reactions in vivo following the application (...)."

Conducted and quoted by:
Dartsch Scientific, Institute for Cellular Biological Test Systems

BEOKEYS: ENHANCING IMPACT ON NEUROPHYSIOLOGY

From the study results:

"The Beosigner® Basis itself leads to a significant improvement in regulation, regeneration, and vital signs on a neurophysiological level. (...) In their specification, the individual indications of the BeoKeys – also on a neurophysiological level – have an even stronger effect. Each BeoKey according to the intended indication (...)."

Two out of four summaries:

BeoKey Power

"More energy, more performance. Faster and better recovery. Metabolic processes are optimized. BeoKey Power can help with constant tiredness and periods of exhaustion."

BeoKey Focus

"Concentration, serenity, calm and contentment are promoted, but activity and dynamism are also supported as required. The function of body systems generally improves."

Conducted and quoted by:
Institute for Sports Science and Health Management (ISGM), Meppen/Münster

IMPACT OF VITALIZED WATER

Conclusion from the test report:

"The treated water (...) showed a distinctive stimulation of basal energy metabolism of connective tissue cells. As a result, a significant stimulation of cell regeneration of these cells was identified. Equally, the direct treatment of the cells (...) was successful, without the indirect route via vitalized water."

Cell Regeneration – after 24 Hours

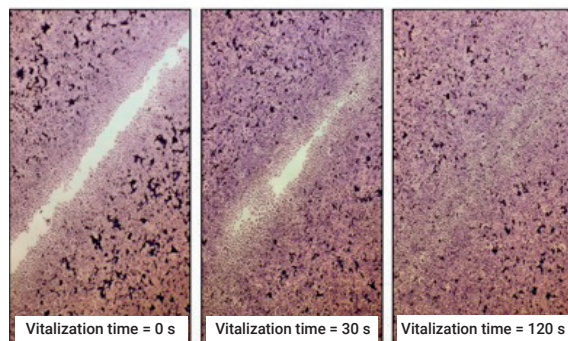

Light area = cell-free space

IMPROVED REGENERATION IN ATHLETES

Conclusion from the test report:

"All collected data show (...) an improvement in regeneration. This is recognized by:

- A significant improvement in vital parameters and stress reactivity
- A marked increase in the phase angle, considered a vitality indicator and a marker of the cells' regulatory capacity
- A significant improvement of heart rate variability (HRV)"

Improvement in stress reactivity

Stress reactivity: this refers to how the body handles stress and achieves relaxation. One of the parameters measured for this is baroreceptors (slopes).

Institute for Sports Science and Health Management (ISGM), Meppen/Münster,
Institute for Sleep Medicine and Sleep Research, Münster

RESEARCH ON CELL HEALTH, CELL REGENERATION AND CELL RENEWAL: THE PHASE ANGLE

- ✓ **Good recovery**
- ✓ **Adequate nutrient supply**
- ✓ **Improvement of the immune system**
- ✓ **Increase in muscle mass**
- ✓ **Boost in vitality**

These are – among other things – positive effects of an increased phase angle. The larger the phase angle, the healthier and more resilient the cell membrane. This means better cell health overall. As a result, vitality and general health improve – and life expectancy increases.

In other words:

With Beosigner® technology, a healthier and longer life is possible.

INVESTIGATION ON THE PHASE ANGLE

A long-term study investigated how – and over what period – the phase angle changes when Beosigner® technology is used.

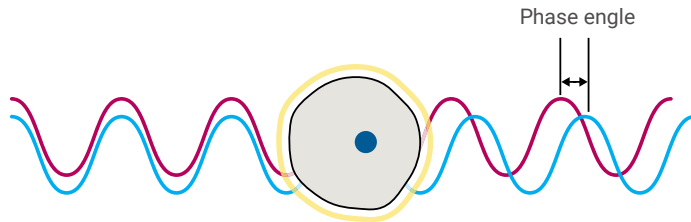

The Institute for Sports Science and Health Management (ISGM), Meppen/Münster, conducted this investigation over four years: from 2018 to 2022, 397 active athletes participated in measurements four times a year (double-blind).

The results of the study exceeded all expectations:

- On average, the phase angle increased by 10% from the start to the end of the study. (Comparable studies cover a maximum of 12 months, with an average increase of only 0.4% to 0.6%)
- A continuous 10% increase in the phase angle over a defined period of four years results in an “increase in life expectancy, vitality, health, and overall survival chances, including for specific medical conditions,” according to the research institute.

The study clearly demonstrates the strong connection between our technology and cell health.

MEASUREMENT OF THE PHASE ANGLE

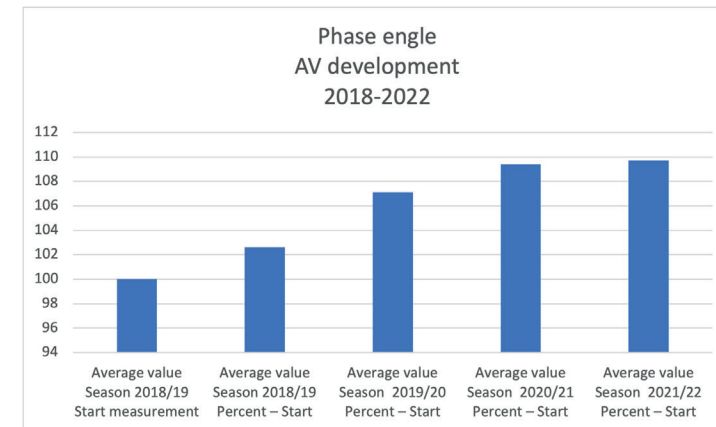

The phase angle is measured using bioelectrical impedance analysis (BIA).

This method assesses the distribution of electrical charges in muscle and organ cells – specifically in cell membranes and mitochondria – as well as the ratio of intracellular to extracellular water.

The phase angle appears as a shift between current and voltage – known as the phase shift.

The graphic illustrates the increase in the phase angle over the course of the long-term study.

Read all the details and the summary of the study results here.

Better cell health is noticeable and visible

The focus of our research is always cell regeneration and renewal – also for slow aging, which is challenging to study. The difficult-to-reach goal is clear: cells that regenerate and renew themselves.

Everything we do at Vitarights Innovations centers on effects at the cellular level. This is the direct path to initiating real change – to creating a healthier, more vital life. To feeling and looking younger and fresher. And that is what we call true slow aging.

It begins on the next page.

THE SLOW AGING CONCEPT

WORKS. UNIQUE WORLDWIDE.

WORK FROM WITHIN. SHINE ON THE OUTSIDE.

PERFECT RESULTS. NATURALLY VISIBLE.
OUR SLOW AGING CONCEPT.

Makes you more beautiful. And healthier:

- Skin looks younger, softer, fresher, smoother, and radiant
- Hair growth is stimulated
- Droopy eyelids appear less pronounced
- Rosacea, acne, and pigmentation improve
- Energy, confidence, and radiance increase
- Blood values improve
- Positive effects on inflammation

QUICK AND EASY

Use Luxood® and BeoKey Slow Aging.
Experience – and see – the results.

Use, apply, vitalize: Slow Aging with Luxood® and BeoKey Slow Aging. The Slow Aging concept is always the same: simple. And fast.

The secret to perfection? It is all in the details!

"First of all, it smells soooo good. The skin feels soooo soft. And even though it's an oil, it absorbs in no time."

Margret Kulmer

"I had a body analysis done six weeks ago – muscle, fat, water levels, etc. Today, I had another measurement. For the first time in six years, the intracellular water levels are within the normal range. To me, that's a sign that Luxxod Nutrient Boost is really working on a cellular level."

Susanne Langkau

"Very pleasant, even as a man. The oil especially blends beautifully into my beard. I take these products on my motorcycle trips over the weekends. It's a treat for well-groomed bikers."

Markus Öffling

THE NATURAL UPGRADE FOR SLOW AGING

At Vitarights, we understand Slow Aging as a comprehensive concept. The scientific foundation? Research in the fields of informational medicine and epigenetics. This creates a unique and exceptional approach: it combines Beosigner® technology with Luxood®. It is your natural upgrade for Slow Aging.

THE UNIQUE CONCEPT

Powerful results, simple use. The BeoKey Slow Aging biologically delivers special Slow Aging information directly into the cells. And the individual components of Luxood® do not just harness the power of nature – they are also biophysically perfected so that all ingredients are fully compatible with the cells.

THE UNIQUE UPGRADE

The BeoKey Slow Aging and Luxood® uniquely elevate your well-being and appearance to a whole new level. You will feel it – and you will see it. And so will everyone else. The effects are obvious – your skin will glow with health, and your vitality will inspire you and others around you.

THE NATURAL UPGRADE

What works better together than nature and luxury? After all, nature is a luxury in itself – like a precious treasure. It holds countless highly effective substances. For our Slow Aging concept, we have carefully selected, combined, and perfected the best of these: for health that results in beauty.

SLOW AGING BEGINS IN YOUR CELLS

Your path to greater vitality begins deep within your cells. Incredible and remarkable processes take place there – and with our Slow Aging concept, you support this process and make it visible.

How? By directly influencing your cells – their ability to regenerate and their power to renew themselves. In other words, exactly what leads to true Slow Aging.

EXCEPTIONAL CONCEPT FOR EXCEPTIONAL PURPOSES

The human body is made up of trillions of cells. Each of these cells has a job: building up, breaking down, or remodeling. This requires an optimal supply of bioactive substances and vital nutrients. If disrupted, cell function can weaken, triggering repair or regeneration.

However, all these functions and abilities decline over the course of a lifetime. Proper nourishment can help slow this process – and with it, the visible signs of aging. We call this: Slow Aging 2.0.

THE COMPONENTS OF THE SLOW AGING CONCEPT:

completely rejuvenating: BeoKey Slow Aging

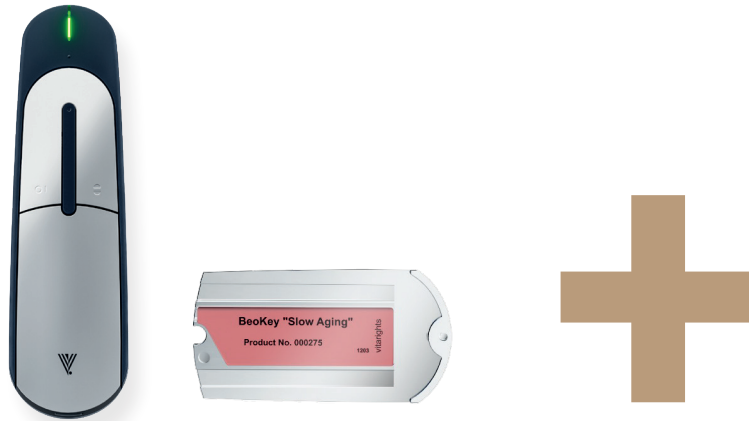

completely nourishing: Luxood® Nutrient Boost

completely clarifying & moisturizing: Luxood® Wholesome Cleansing Oil

completely harmonizing: Luxood® Rose Water

completely revitalizing: Luxood® Cell-Activating Slow Aging Oil

WORKS FROM THE INSIDE OUT FROM THE OUTSIDE IN

completely rejuvenating BeoKey Slow Aging

With the BeoKey Slow Aging, you communicate with your cells – simply, quickly, and precisely. The coherent light from the Beosigner® biologically delivers valuable information directly into the cells. In this case: data related to hormones, nutrients, proteins, antioxidants, and enzymes – all essential for cell regeneration. And naturally, all focused on Slow Aging.

completely nourishing Nutrient Boost

Are you ready for the Slow Aging revolution? The Luxood® Nutrient Boost is your "Hall of Fame" of Slow Aging nutrients – all packed into a single daily capsule. Here, you get the right, thoroughly researched Slow Aging substances, in the right amounts and balanced ratios. Delivered in a form that acts directly and highly effectively within your cells. And everything about it is truly unique. Just as unique is the combined effect of Luxood® Nutrient Boost and BeoKey Slow Aging. Because it is simple: first nourish, then inform – for perfect communication at the cellular level.

**completely clarifying & moisturizing
Wholesome Cleansing Oil**

Your natural glow begins with Luxood® Wholesome Cleansing Oil. As you gently massage it in, your skin breathes deeply while being thoroughly and gently cleansed. At the same time, precious oil essences nourish your face – leaving behind a pure feeling of lightness. The result? Noticeably beautiful skin that softly glows with you throughout the day. You see it, you feel it.

**completely harmonizing
Rose Water**

Luxood® Rose Water is your daily glow luxury. Enjoy the enchanting scent of 100% Damask rose from Bulgaria's Rose Valley. Experience skin that feels fresh, vibrant, and relaxed – and looks just as radiant. Now you can take "rosy freshness" literally. Indulge in the spray form of this legendary organic rose water toner.

**completely revitalizing
Cell-Activating Slow Aging Oil**

The more glow, the more wow! Luxood®'s highly effective skincare works deep within your skin. We have optimized powerful, precious plant oils and essences for maximum cellular absorption. This spectacular Slow Aging product nourishes your skin from the inside – and protects and cares for it from the outside. With Cell-Activating Slow Aging Oil, your radiant glow is truly a natural glow.

WE RELY ON SCIENCE AND EFFECTIVENESS

The origin of Luxood® lies in epigenetics, which involve mechanisms of action at a cellular level.

The remarkable thing about it? You can influence these epigenetic mechanisms and thus have an impact on the activity of genes. This is not just a theory – it is backed up by solid science. That is why Vitarights is always at the forefront of innovation in the field of epigenetics, pushing the boundaries when it comes to new concepts.

We focus on the very root of where key processes begin – and yes, we are seeing results. Studies confirm this time and time again – such as the long-term study on changes in phase angle.

The larger the so-called phase angle, the healthier and more resilient the cell membrane. It is about better cellular health and its effects – like improved regeneration capacity and increased overall life expectancy.

We explore this topic in more detail on pages 32 and 33. The study highlights the essential role of our Beosigner® technology as part of the highly effective Slow Aging concept.

WHAT MAKES LUXOOD® SPECIAL – JUST FOR YOU

100% Natural. One-of-a-kind cutting-edge technology.

NATURE'S PRECIOUS ESSENCE

The "Who's Who" of well-researched Slow Aging nutrients that deliver outstanding results.

Pure essential oils that work at the cellular level, giving you double the benefits.

What is second nature to us: the right ingredients in the right concentration, and the perfect balance between them. This applies to both the Nutrient Boost and all our essential oil blends.

THE POWERFUL TECHNOLOGY

We fine-tune our products using cutting-edge biophysical techniques. How we do it? That is our secret, as it is one of our unique selling propositions. We use custom- developed technologies that are perfectly suited to each product.

This is a huge advantage for you. Why? Because it allows the ingredients to bind directly to the specific receptors on cells. **And that is essential: because to "be take them in" means to "be effective."**

TESTIMONIALS ON THE **SLOW AGING CONCEPT**

"I have had rosacea since I was 25. With Lu-xood, it is just gone. The large pores have shrunk, and dry skin is a thing of the past."

Ramona Sbieschne

"I was already experiencing significant thinning hair, which really bothered me. Then I started using the Slow Aging Key to revitalize my scalp and regularly took the Nutrient Boost. And look at that – my hair has become full again."

Christine Wolkerstorfer

"The lines on my face have softened!"

Daniela Oehmen

"I had heart surgery some time ago. Since then, I've been using the Vitalmonitor for regular check-ups, and I had to deal with it showing a bio-age of 80, but I'm only 63. With the Nutrient Boost, it's now down to 58."

Antje Pape

"The Cell-Activating Slow Aging Oil is amazing! My neckline looks beautiful again."

Kerstin Nickel

"I went to my beautician, and she immediately said that my skin looks firmer and tighter. Even the large pores on my nose have shrunk, and my overall skin texture has improved. I'm thrilled."

- Concentration in school and work
- Cognitive performance, comprehension
- Memory
- Back pain, tension
- Overall musculoskeletal system
- Enjoyment of physical activity
- Sports and leisure: ability to perform and recover

IT IS THAT EASY

Put on the ViSponder®. Experience the effect.

Whether for improved brain performance, a smoothly functioning and strong musculoskeletal system, or enhanced athletic performance, the use of the ViSponder® is always the same: simple. And fast.

So simple, so effective? Yes!
Just flip to the next page for the optimal frequency.

"My mind feels much clearer, and I'm no longer as tense. I'm able to work more calmly and with better focus."

Dana Dubil on the ViSponder® Brain

"I'm thrilled with my experience using Flexibility! The tension in my shoulders and back disappears within minutes, and I feel incredibly flexible again. My husband has had the same experience."

Tamara Tschandl

"The ViSponder bracelet helps me a lot. I really tested it by doing squats, which I usually do with heavy weights, both with and without the ViSponder. And it honestly felt like there was 10 to 20 kilos less weight when I wore the bracelet."

STRENGTHEN YOUR BODY WITH OPTIMAL FREQUENCIES

Each ViSponder® carries body-matching frequencies and subtle structures to specifically support targeted areas of the body.

THE EFFECT – UNIQUE AND INSPIRED BY NATURE

The ViSponder® harnesses what constantly surrounds us: electromagnetic fields. These fields occur naturally as well. Every living organism constantly converts energy, creating a continuous electromagnetic field. These fields interact through electromagnetic frequencies: for example, data is read or transferred from one field to another.

HOW THE VISPONDER® WORKS

1. Your body constantly transfers its individual electromagnetic field to the field of the ViSponder®. We have programmed various data into the ViSponder®: body-matching frequencies that are relevant to specific organ systems. In addition, we have included the data of selected subtle structures.
2. The ViSponder® continuously compares your data with its own.
3. If an imbalance is detected during the comparison, the ViSponder® supports you by sending back structured and enriched frequencies, strengthening the area you have selected.

You can find information about the frequencies and structures in our FAQ

ViSPONDER® BRAIN FOR ENHANCED BRAIN ACTIVITY

Face cognitively challenging situations with a clear mind and rely on your memory at all times.

This is what the ViSponder® Brain can do:

- Enhanced memory performance through improved brain circulation
- Improved self-awareness
- Boosted cognitive performance and comprehension ability

Scientific Evaluation: Summary

"The subjects showed a significant improvement in stress resistance and regulatory processes, which has a long-term effect on the brain and cognitive performance. Due to the significantly better proprioception and fine motor skills, an increase in performance can also be seen in the field of neuroathletics."

ViSPONDER® FLEXIBILITY FOR A HEALTHY MUSCULOSKELETAL SYSTEM

Support your musculoskeletal system: for smooth movements, especially when it is often more of a sitting or standing apparatus.

This is what the ViSponder® Flexibility can do:

- Prevents back problems by strengthening the musculoskeletal system
- Supports mobility maintenance through optimized interaction of ligaments, tendons, and joints
- Smooth movements through increased flexibility and agility

Scientific Evaluation: Summary

"The significant improvement in core stability and the interaction of ligaments, tendons and joints has a positive effect on the entire musculoskeletal system. Mobility, stability and optimized movement sequences in turn support the functionality of posture, self-awareness and movement sequences in sporting challenges as well as in everyday life."

ViSPONDER® SPORT FOR IMPROVED PERFORMANCE IN SPORTS

Become fitter and more powerful.
Not just in sports, but also in your activities.

This is what the ViSponder® Sport can do:

- Mobilizes energy resources for peak performance
- Shorter and better recovery periods
- Increases strength and endurance through optimal muscle and oxygen supply

Scientific Evaluation: Summary

"Both subjects – the performance athletes as well as hobby athletes – experienced a significant increase in performance with the ViSponder® Sport. Regeneration, regulation and vitality showed significantly positive changes."

TESTIMONIALS ON ViSPONDER®

"I've had great results with the ViSponder Brain when it comes to concentration, motivation for studying, and performance improvement."

Manuela Hofknecht

"I didn't have my ViSponder Sport with me yesterday and decided to go bouldering on a whim. At a certain point, I experienced a major performance drop. I had no strength or endurance left, and my muscles just shut down. Today, I'm sore like I haven't been in a long time because I usually wear the ViSponder. So, while I still reached my usual performance level, it was for a much shorter time, and the recovery is completely different."

Rena Edzards

"My husband is absolutely thrilled with the ViSponder Sport. He notices a significant boost in performance when running and playing tennis."

Nicole Rosenberger

"My knee pain, caused by osteoarthritis and misalignment, had improved somewhat through the osteopathy sessions I've been attending. However, the pain hadn't completely gone away. Since I started using the ViSponder Flexibility, the pain disappears completely after just 30 minutes to an hour of wear."

Petra Huck

Werner Z. had a stroke that affected his speech center. With the ViSponder® Brain, significant improvements have been made: fewer speech disturbances, better word recall, and improved concentration.

"I've been suffering from multiple herniated discs as well as chronic back and muscle pain for a long time. After wearing the Flexibility for about two weeks – though somewhat irregularly – I woke up pain-free for the first time in the morning. Throughout the day, the pain was also significantly less intense. That was a real relief for me."
